

8105 MAVERICK

8105SBBLBM

8105SWSMD

8105SBRRM

Adjustable nose piece

The 8105 Maverick design has an adjustable nose piece which can be moulded and formed to suit your nose and sitting comfort. Further comfort is enhanced with the co-injection temples.

The frame has been designed and manufactured as a solid frame for medium impact protection.

All lens are distortion free and provide UV protection.
The lens is also hard coated.

Each Maverick comes with a Microfibre bag.

The Maverick is certified to AS/NZS1337 by SAI Global with medium impact resistance.

The Maverick is available in a range of vibrant frame colours. It is also available in the photochromatic (indoor/outdoor) lens as well as polarised lens.
