

# MAX 5

## CUT RESISTANT LEVEL C

### TOUCHSCREEN

The Max 5 is a PU coated glove, offering you maximum protection in all key areas of risk as measured by the European Standard for gloves.

The Max 5 mechanical risk as assessed by EN388:2016 and EN13997 is 4X43C

Both the first and thumb's fingerprints have a unique sewn in thread to allow it to work with touchscreens including tablets, phones, portable scanners, ATMs and other sensitive screens.

The PU Coating on the palm extends to the back of the fingernails, providing all round protection.

The knitted wrist is colour coded to assist identifying the size of gloves.

A full size mix is available from Size 7 (Small) through to Size 11 (XXL).

CODE	SIZE
G5TPU7	S
G5TPU8	M
G5TPU9	L
G5TPU10	XL
G5TPU11	XXL

Scan the QR code to see the MAX 5 in action.
